MINIX's 33W PPS 2-Port GaN Charger combines a USB-C port and a USB-A port to create a next-gen charger that delivers unprecedented power and portability.

Ultra-Portable

The cleverly designed, built-in foldable wall plug tucks away when not in use, further reducing MINIX NEO P1 Mini's size.

Our 33W PPS 2-Port GaN Charger supports worldwide universal 100-240V voltage. EU and UK adapters are included in the package for worldwide compatibility, making it the perfect travel companion.

Universal Compatibility

MINIX NEO P1 Mini supports the majority of Quick Charging Protocols, including PD 3.0, PPS, QC4+, QC 3.0, Samsung AFC, Huawei FCP/SCP, Apple 2.4A, etc. It is compatible with most smartphones, tablets, laptops and electronic devices that accept 30W/33W PPS charging input.
